REACH and POP Declaration of Conformity

It is hereby confirmed that the products:

Product Type: **CodeMeter-Stick**
Product Series: **CmStick**
Part Number: **1001-03-1x0-xxxx**

meet the requirements of the current

EU Regulation (EC) No. 1907/2006 (REACH), in combination with
EU Regulation (EU) No. 207/2011 / REACH Annex XVII (PBDEs)
EU Regulation (EU) No. 1272/2013 / REACH Annex XVII (PAH, DINP)
EU POP Regulation (EU) 2019/1021, including amendments:
(EU) 2020/784, (EU) 2020/1203, (EU) 2020/1204, (EU) 2022/2291,
(EU) 2025/718 (PFOS), (EU) 2025/1399 (UV-328), (EU) 2025/1930 (Dechlorane Plus)

WIBU-SYSTEMS products are "articles" as defined within REACH Regulation (EC) No. 1907/2006 and do not contain any Candidate List SVHC above the 0.1% (w/w) concentration limit, based on Full Material Declarations (FMD) according to IPC 1752-D from our suppliers, contractual Trade Secret agreements excluding regulated substances, and independent laboratory testing (**including all 253 substances as of 2026-02-04**).

The following substances restricted under REACH Annex XVII are confirmed absent: **Diphenylether-Pentabromderivat** (EU Regulation No. 207/2011 / Annex XVII), **Polycyclic Aromatic Hydrocarbons – PAH** (EU Regulation No. 1272/2013 / Annex XVII), and **di-'isononyl' phthalate – DINP** (EU Regulation No. 1272/2013 / Annex XVII).

In compliance with the EU POP Regulation (EU) 2019/1021 and its amendments, the following persistent organic pollutants relevant to electronic products are **confirmed absent**, including below applicable Unintentional Trace Contaminant (UTC) limits:

PFOS and its salts (CAS 1763-23-1) – UTC limit 0.025 mg/kg per (EU) 2025/718
PFOA, its salts and related compounds (CAS 335-67-1)
PFHxS, its salts and related compounds (CAS 355-46-4)
Dechlorane Plus (CAS 13560-89-9) – per (EU) 2025/1930
UV-328 (CAS 25973-55-1) – UTC limit 10 mg/kg per (EU) 2025/1399
DecaBDE (CAS 1163-19-5)
HBCDD (CAS 25637-99-4)
SCCPs – Short-chain chlorinated paraffins (CAS 85535-84-8)
PCBs, PCDD/PCDF – as unintentional trace contaminants

This conformity is substantiated by the product's halogen-free material design (UL-certified polycarbonate housing, halogen-free PCB laminates, zinc alloy enclosure) which constructively excludes brominated and chlorinated flame retardants. Full substance-level evidence is documented in the corresponding IPC 1752-D Full Material Declaration (FMD) and will be delivered on request.

This declaration is made on behalf of the manufacturer:

WIBU-SYSTEMS AG, Zimmerstrasse 5, 76137 Karlsruhe, Germany

Please do not hesitate to contact us, should you have any questions.
We will be happy to share our expertise and data with you.

WIBU-SYSTEMS AG, 18 February 2026

i.A. Remo Albrecht
Head of Quality Management
